PROFESSIONAL SUMMARY

Full Stack Java Developer with expertise in Spring Boot, Hibernate, and SQL | Skilled in designing scalable microservice architectures and robust backend systems | Proficient in React, Next, and MongoDB for full-stack application development.

WORK HISTORY

Twinline Business Solutions - **SDE-1**
Gurgaon, India
08/2024 - Current

- Develop scalable microservice-based solutions for Micro Financing platforms using Spring Boot, Hibernate, and SQL.
- Architect and deploy Open APIs to enhance system integration, product efficiency, and client deliverables.
- Design and build Loan Management Systems, improving operational workflows for Microfinance Institutions (MFIs).
- Built an in-house Server Monitoring System to track server uptime/downtime, automate email and call alerts, and strengthen infrastructure resilience.
- Developed an Employee Tracking System to monitor daily location activities of loan officers, enhancing operational visibility and field management.
- Enhance UI/UX across platforms, delivering a smoother user experience and supporting better client engagement.

PROJECTS

SocialItUp Clone - https://social-it-up-admin-panel-powered-by-nc.vercel.app/
Developed a clone of the "Social It Up" marketing site along with a separate serverless admin panel for lead management, real-time chat, and task tracking using Next.js and Firebase.

Tomato-Food Delivery/Restaurant Website - **https://tomato-food-frontend.onrender.com/**
Developed a responsive food delivery app using React.js, Node.js, MongoDB, with an admin panel for management.

EDUCATION

08/2020 - 08/2024
Chitkara University
Rajpura,Punjab

Bachelor's of Engineering:
Computer Science And Programming

CERTIFICATIONS

Frontend Engineer Certificate(ReactJS) By Pro5.ai

OOPS Using Java

SKILLS

Spring framework

API design and development

Hibernate ORM

RESTful apis

Performance optimization

Microservices architecture

SQL and NoSQL databases

JavaScript programming

ReactJS, NextJS
